**We are revolutionizing the
Solutions for Machine
Control.**

Introduction

GuideTech is a dynamic and innovative company in the field of machine control, revolutionizing the construction industry.

As a strategic partner of the market leader Leica Geosystems, we bring state-of-the-art technology and expertise to provide superior solutions.

Our mission

Our mission is to empower construction professionals with state-of-the-art machine control systems, enhancing accuracy, productivity, and profitability in every project.

We strive to redefine industry standards through innovation and exceptional services.

Our vision

Armed with a vision to be the leading provider of machine control solutions, we aim to transform the construction landscape by seamlessly integrating advanced technology into construction processes.

We envision a future where efficiency, accuracy, and safety are paramount.

Our fundamental values

INOVATION

We are committed to pushing boundaries and leveraging the latest advancements in technology to develop innovative solutions for machine control.

QUALITY

We prioritize delivering high-quality products and services that meet and exceed industry standards, ensuring reliable and accurate results.

COLABORTION

We promote strong partnerships with industry leaders such as Leica Geosystems to combine expertise and resources for the benefit of our clients.

CLIENT ORIENTED

We place customers at the center of our operations, understanding their specific needs and providing personalized solutions that lead to their success.

AGILITY

We promote strong partnerships with industry leaders such as Leica Geosystems to combine expertise and resources for the benefit of our clients.

INTEGRITY

We operate with integrity, maintaining transparency, honesty, and ethical practices in all our interactions with customers, partners, and stakeholders.

The partnership with Leica Geosystems

GuideTech proudly collaborates with Leica Geosystems, a leading global provider of innovative measurement solutions. This strategic partnership allows us to leverage their cutting-edge technology, expertise, and global support network, ensuring that our customers have access to the most advanced and reliable machine control solutions available.

The products offered by GuideTech are accredited and equipped with Leica Geosystems technology. This technology sets global industry standards in precision, quality, service, and performance, maintaining high levels of customer satisfaction.

The machine control options available through GuideTech include machine control, 2D, 3D, and automated solutions. Additionally, GuideTech provides high-precision construction tools, ranging from rotating lasers to user-friendly complex total stations and GPS technology. These elements enhance the workflow and professionalism of every engineer.

Our partnership with the world's leading technology provider, Leica Geosystems, allows us to confidently deliver the best available solutions.

Social responsibility and sustainability

We understand the importance of environmental sustainability, and we are committed to minimizing our ecological footprint. GuideTech implements environmentally friendly practices throughout our operations. We prioritize energy efficiency, waste reduction, and responsible resource management.

Through our solution, we proactively minimize waste and unnecessary construction activities or rework. This is achieved by programming the machines to follow the project's route and design levels, ensuring that only the necessary and requested materials are handled.

We also strive to promote sustainable practices within the construction industry by offering technologies that optimize resource usage, reduce emissions, and improve overall efficiency.

Media coverage and press releases

Our company was featured on the TV show "Utilaje TV" while participating in the Cobuild event held in Alba Iulia.

GUIDE TECH details the benefits of machine control on excavators and bulldozers in the TV show hosted by Utilaje TV.

Commitment to Excellence

Although we are a new company in the market, GuideTech is committed to delivering excellence in every aspect of our business. We are dedicated to constantly improving ourselves by investing in development to stay in line with industry trends and provide our customers with the most advanced and reliable solutions.

GuideTech offers a comprehensive range of machine control solutions tailored to the specific needs of the construction industry. Our top-of-the-line products include precise GPS systems, advanced laser-based solutions, and intuitive software solutions.

Our team of skilled professionals provides guidance, installation, training, and continuous support, ensuring that our customers receive the highest level of assistance throughout their projects. We strive to build long-lasting relationships with our clients based on trust, reliability, and exceptional service.

GuideTech is committed to driving innovation in the construction industry and being a trusted partner for our customers' success.
